Prepared for the RESEARCH QUARTERLY by

**JACQUELINE SHICK**

and

**MARTHA E. MONTGOMERY**

*This index is composed of the following three subindexes: (1) bibliographical, (2) author, and (3) topic. Entries in the bibliographical index are numbered and have been alphabetized by the last name of the author or, in the case of multiple authors, by the last name of the senior author. Reference information includes the name(s) of the author(s), the title of the article, the month of publication, and the page on which it is found.*

*The author index cites the name of each author followed by the bibliographical number of his article(s).*

*In the topic index, each article is listed under those important topics about which the article provides information and/or data. The number or numbers included in the listing refer to those given in the bibliographical entries.*
